Salle Trisac

Going Forward: Business Unusual

Codi Shewan, The Change Master

This presentation recalibrates attendees and introduces them to ways that realign their expectations and apprehension to change. This presentation is known for getting people comfortably uncomfortable, in a fun and dynamic way. If your organization needs to evolve, innovate and grow, step outside of your comfort zone where the magic happens, and watch shift begin to happen right in front of your eyes!

2:25pm – 2:40pm **Break**

2:40pm – 5:00pm **Plenary**

Salle Trisac

Yesterday's Achievements and Tomorrow's Solutions

Healthy Communities for Animals & People

A lack of basic animal wellness services has created an abundance of challenges in Northern Canada including barriers for communities to provide care for their animals. Many groups have been working together with Northern Indigenous, urban and rural communities to develop and deliver solutions, but much more support is needed to reduce and ultimately eliminate barriers seen in the North. This session will allow

collaborators and community members the opportunity to share first hand accomplishments to breaking these barriers and where further assistance is needed to ensure sustainable solutions for Northern Canadian Communities; while also allowing opportunity for questions and discussion.

Facilitators:

Daryl Vaillancourt, Ontario SPCA & Kim Morris, Collège Boréal

Speakers:

1. **Bruno Henry, Wiky Rez Dog Volunteers** – Healthy Indigenous Communities for Animals & People
2. **Hichem Rabie Anabi, Collège Boréal** - Video of Alberta Spay Neuter Clinic
3. **John Greer, Welland SPCA** - Animal Wellness & Spay Neuter Services
4. **Nikki Burns** – MASH style SN clinics
5. **Judi Cannon, Ontario SPCA** – Provincial Animal Transfer Program

Au Pied du Rocher

Registration & Continental Breakfast

8:25am – 8:30am
Salle Trisac

Welcome

8:30am – 9:15am

Telemedicine for Pets & Connected Care - Soins connectés à l'ensemble de l'Ontario

Salle Trisac

Emma Harris, CEO & Founder Healthy Pets & Sylvie Gaskin, Director, Privacy and Risk, OTN

Telemedicine for Pets

Healthy Pets is Canada's first application of video telemedicine for veterinary care. Connecting local veterinarians with pet parents from home provides peace of mind, and sound advice and triage, from a quality standard of care day or night. Healthy Pets hopes to improve the accessibility of veterinary care for members of Northern Ontario and Canada through its proprietary platform.

Connected Care - Soins connectés à l'ensemble de l'Ontario

Après plus d'une décennie d'innovation, OTN est devenu un chef de file mondial en télémédecine et en soins connectés. Nous réduisons les réadmissions à l'hôpital, transformons les soins primaires et nous étendons les soins à domicile et communautaires à l'ensemble de l'Ontario. Vous découvrirez aussi comment les Ontariennes et les Ontariens ont déjà accès à la télémédecine and how this model of care could be leveraged for non-humans !

Delivering and receiving healthcare using telemedicine and telecommunications technology has become the new normal.

This presentation will take a look at OTN's evolution and reach across Ontario. You will discover how Ontarians already have access to telemedicine and how this model of care could be leveraged for non-humans!

9:15am – 11:20am

Learning Pods

Delegates will have the opportunity to spend 20 minutes in each learning pod to learn more about solutions and interact with others.

Mobile Animal Wellness Clinic – Welland SPCA

Location: *Outside Cafeteria*

Reptile Identification – Steve Featherstone

Location: *Museum*

Provincial Animal Transfer – Ontario SPCA and North Bay Humane Society

Location: *Parking lot (at North Bay Trailer)*

Why Collège Boréal? - Collège Boréal

Location: *Classroom lab*

Indigenous Teachings - TBA

Location: TBA

11:20am – 12:30pm Our Path Forward & Lunch

Au Pied du Rocher Facilitators: Judi Cannon, Brandi Kehoe, Taryn Byrne, Sonya Reichel and Suzanne Serresse

This session will allow delegates the opportunity to share ideas and insights gained over the two day summit, while helping to discover a path forward for actionable solutions to challenges faced in the North.
